

Theme Park Website Project

Part 1 - Design Specification

1. Purpose

Summary

No	Purpose	Stakeholders	Contents	Importance
1	Online Ticketing	<ul style="list-style-type: none">potential visitorsavid fans	<ul style="list-style-type: none">Ticketing Function	High
2	Information	<ul style="list-style-type: none">general audiencepotential visitorsactual visitorsavid fans	<ul style="list-style-type: none">Opening HoursTicket PricesPark LocationMajor AttractionsShops & Dining	High
3	Branding	<ul style="list-style-type: none">general audiencepotential investors	<ul style="list-style-type: none">StylingLogo	Mid
4	Advertisement	<ul style="list-style-type: none">general audienceavid fans	<ul style="list-style-type: none">Promotion BannerNewsletterSocial Network Links	Low
5	Customer Support	<ul style="list-style-type: none">general audienceactual visitors	<ul style="list-style-type: none">Customer Support Function	Mid

Discussion

- Reasons for a theme park operator to have website
 - to provide online ticketing enabling visitors to plan their trips in advance
 - to offer comprehensive information about the theme park including opening hours, ticket prices, location, attractions, shops, and festivals
 - to enhance their brand identity through visually appealing features
 - to promote the theme park through advertisements, special offerings, unique rides, events, and discount opportunities
 - to provide online customer support services

- People who might look at such a website
 - individuals or families having kids, tourists, large groups, organizations, avid fans, and potential investors
- Reasons that they who be looking at the website
 - to purchase tickets in advance
 - to make reservations for special events or resorts
 - to stay updated on the latest news regarding discount opportunities and special shows
 - to find useful information such as restrooms, dining options, maps, accessibility, accommodations, transportations options, and more
 - to access online customer support services
- Considerations
 - As those who look at the website include kids, the website should consider accessibility and usability first
 - Also, the main contents should focus more on providing information, since they have wider audiences
 - Reservation options and information on accommodation should be separate from the main website to concentrate more on the essential contents
 - Advertisements should not be the main content because too many of them may lead to the loss of visitors

2. Research on Theme Park Websites

Summary

Websites	Disneyland , Universal Studios Hollywood , Park Asterix Paris , Europa-park , Legoland
Common Type of Information	<ul style="list-style-type: none"> ● Opening hours ● Attractions and rides ● Ticket options ● Dining and shopping options ● Events(w/ entertainment schedule), special promotions, and seasonal offerings ● Park maps and directions ● Accessibility information ● FAQs
Structure for Navigation	<ul style="list-style-type: none"> ● Easy Navigation <ul style="list-style-type: none"> ○ Navigation menu on the top ○ Sitemap on the bottom ○ Sections to group different information ● Highlight on Important Information <ul style="list-style-type: none"> ○ Cover section on the main page ● Branding Identity <ul style="list-style-type: none"> ○ Logo on the top ● Provision of Detailed Information <ul style="list-style-type: none"> ○ Detailed Information, such as contact information and customer support, on the bottom
Good parts	<ul style="list-style-type: none"> ● Sticky top navigation ● Effective utilization of primary color ● Grouped menu items ● Multimedia contents ● Online ticketing ● Mobile-friendly design ● Simple gallery ● Card design ● Interactive buttons and icons ● Search bar ● Sitemaps on the bottom ● Animation effects
Bad parts	<ul style="list-style-type: none"> ● Slow loading time of multimedia content ● Complex menu and wide range of information ● Limited accessibility features

Analysis

- 5 different websites of theme parks
 1. Disneyland: <https://disneyland.disney.go.com/>
 2. Universal Studios Hollywood: <https://www.universalstudioshollywood.com/web/en/us>
 3. Park Asterix Paris: <https://www.parcasterix.fr/en>
 4. Europa-park: <https://www.europapark.de/en>
 5. Legoland: <https://www.legoland.com/>
- Type of information that can be found on the sites
 - Attractions and rides
 - Opening hours
 - Entertainment schedule
 - Ticket options and online booking
 - Dining and shopping options
 - Events, special promotions, and seasonal offerings
 - Park maps and directions
 - Hotel reservations and vacation package bookings
 - Accessibility information
 - Location and branches worldwide
 - FAQs
- Structure that these sites have to help people find that information
 - The websites should feature search functionality, a clear top navigation menu, and site maps at the bottom, enabling visitors to easily explore various pieces of information
 - The websites should include highlighted sections on the main page to introduce important information, such as upcoming events and various promotions
 - The websites should effectively utilize primary colors and logos to showcase their brand identity
 - The websites should be organized into sections based on categories, allowing visitors to navigate different aspects of the park easily
 - The websites should incorporate diverse types of media, including videos and images, to captivate visitors' attention and enhance their browsing experience
 - The websites should provide important information at the bottom, such as contact details, customer support options, terms of use, and other relevant legal policies
 - The websites should be designed mobile-friendly to improve accessibility
- Aspects of the sites that can be seen as a good idea
 - Sticky top navigation
 - The menu that remains fixed at the top of the page provides easy access to various sections as visitors scroll
 - Effective utilization of primary color

- It creates a visually appealing and cohesive design that aligns with the park's brand identity
 - Thoughtfully grouped menu items
 - They are convenient for visitors to explore specific information
 - Multimedia contents
 - They enhance the visitor's experience and showcase the park's offerings
 - Online ticketing and reservations
 - It is part of the major functionality of the website
 - Mobile-friendly design
 - It ensures a seamless browsing experience through mobiles or tablets
 - Gallery with slides (carousel)
 - It effectively showcases images or highlights
 - Card design
 - It presents information in a concise and visually appealing manner, summarizing the key features or offerings
 - Interactive buttons and icons
 - It provides intuitive and engaging user interactions
 - Language options
 - They enable the website to cater to a diverse audience worldwide
 - Search bar
 - It allows visitors to quickly search for specific information
 - Sitemaps on the bottom
 - They provide a comprehensive overview of the site's structure
 - Animation effects
 - The animation effects on the main page attract visitors' attention effectively
- Aspects of the sites that might not be successful
 - Slow loading time of multimedia content
 - The Europa-Park website's multimedia content, such as videos, takes a significant amount of time to load. Optimizing the loading time of these multimedia elements would improve the overall user experience.
 - Complex menu and wide range of information
 - The website's menu structure and the extensive range of information available, including various accommodations and international branches, may overwhelm visitors and make it difficult for them to focus on the theme park's main features
 - It might have to consider dividing the interests into separate sites to provide a more streamlined and focused experience
 - Limited accessibility features
 - Some of the theme park websites may have limited accessibility features due to design considerations

- To cater to a diverse audience, including children and seniors, it is important to incorporate accessibility features such as appropriate font sizes and clear, easy-to-use links

Discussion

- Type of information to be included
 - The type of information should be concise for the main purpose of the website
 - Therefore, information on accommodation and global branches should be excluded
 - Entertainment schedule can be included in information on events
 - Key information should be:
 - Opening hours
 - Attractions and rides
 - Ticket options
 - Dining and shopping options
 - Events(w/ entertainment schedule), special promotions, and seasonal offerings
 - Park maps and directions
 - Accessibility information
 - FAQs
- Structure to be adopted for easy navigation
 - All will be applied
- Good parts to be included
 - Complexity on visual should be avoided, so gallery should be simple rather than using slides(carousel)
 - Language options make the site complicated, and it should be a separate site if it has to be localized
 - Main takeaways should be:
 - Sticky top navigation
 - Effective utilization of primary color
 - Grouped menu items
 - Multimedia contents
 - Online ticketing
 - Mobile-friendly design
 - Simple gallery
 - Card design
 - Interactive buttons and icons
 - Search bar
 - Sitemaps on the bottom
 - Animation effects
- Bad parts to be excluded
 - All will be applied

3. Content

Summary

No	Contents	Purpose	Importance
1	Opening hours	Information	High
2	Attractions <ul style="list-style-type: none"> ● Minecraft roller coasters & rides ● VR zone ● Escape rooms ● Maze and battlefields ● Minecraft live shows ● Village tour with pixel art 	Information	High
3	Ticket options <ul style="list-style-type: none"> ● Ticket prices ● Discount options 	Online Ticketing, Information	High
4	Dining and shopping options <ul style="list-style-type: none"> ● Gift shops and ATMs ● Minecraft item-like food services 	Information	High
5	Events(w/ entertainment schedule), special promotions, or seasonal offerings <ul style="list-style-type: none"> ● Meet with Minecraft streamers events ● Participatory events 	Information, Advertisement	Low (but should be highlighted at first sight)
6	Park maps and directions <ul style="list-style-type: none"> ● Locations of attractions and rides ● Locations of gift shops and ATMs ● Locations of medical help 	Information, Customer Support	Mid
7	Accessibility information <ul style="list-style-type: none"> ● Medical help 	Information, Customer Support	Mid
8	Customer Service <ul style="list-style-type: none"> ● FAQs ● Subscription to newsletter ● Contact + Social network links 	Customer Support, Advertisement	Low

Discussion

- Theme
 - Minecraft Adventure Park
- Types of attractions for different visitors
 - Minecraft roller coasters & rides
 - These roller coasters faithfully capture the blocky and adventurous nature of Minecraft
 - They feature decorations like Creeper motifs and thrilling minecart tracks
 - VR zone
 - Visitors can participate in virtual building challenges and explore various Minecraft worlds through cutting-edge VR technology
 - Escape rooms
 - These rooms are intricately designed using Minecraft's redstone mechanics, and visitors can work together to solve puzzles and unravel the mysteries within
 - Maze and battlefields
 - Embark on an exciting adventure through the maze, where visitors can search for rare items and uncover hidden treasures
 - If visitors are up for a challenge, they can engage in epic battles with a life-sized monster for an unforgettable experience
 - Minecraft live shows
 - With talented actors, mesmerizing lighting effects, and immersive storytelling, these shows transport visitors into a world of Minecraft-inspired stories and adventures
 - Village tour with pixel art
 - Visitors can take a guided tour of our meticulously crafted Minecraft villages, complete with pixel art and costumed villagers
 - They also can capture memorable moments with photos amidst the charming pixelated scenery
- Other services
 - Gift shops and ATMs
 - Gift shops offer a wide range of Minecraft-themed merchandise, including apparel, toys, and collectibles
 - ATMs will be located close to those shops
 - Minecraft item-like food services
 - Visitors can indulge in a unique culinary experience with Minecraft item-inspired food services
 - Medical help
 - Trained medical staff should be available on-site to provide any necessary medical assistance or first aid
 - Meet with Minecraft streamers events

- From meet-ups and autograph sessions to exclusive live streams, these events offer a unique opportunity to engage with visitors' favorite Minecraft streamers.
- Participatory events
 - Visitors can participate in various events, such as crafting workshops, building challenges, and so on.
- Other information
 - Adventurous map guidance with quests
 - Visitors can navigate the park with paper or online map guidance
 - The quests are provided to uncover secret locations and discover the park's hidden treasures
 - Also, event calendar, park hours, park rules and guidelines, accessibility information, and terms and policies might need to be provided (optional)
- Considerations
 - Common type of information analyzed above should be included
 - Importance and purpose of the website predefined should be considered
- Conclusion
 - The final information will include:
 - Opening hours
 - Attractions and rides
 - Minecraft roller coasters
 - VR zone
 - Escape rooms
 - Maze and battlefields
 - Minecraft live shows
 - Village tour with pixel art
 - Ticket options
 - Dining and shopping options
 - Gift shops and ATMs
 - Minecraft item-like food services
 - Special Events(w/ entertainment schedule) or special promotions
 - Meet with Minecraft streamers events
 - Participatory events
 - Park maps and directions
 - Locations of attractions and rides
 - Locations of gift shops and ATMs
 - Locations of Medical help
 - Accessibility information
 - Medical help
 - Customer Service
 - FAQs
 - Customer support
 - Newsletter
 - Social Network Links

4. Structure

Summary

	Element	Content
Common	Header – Alerts	Opening Hours + CTA Button
	Header – Navigation	Logo + Main Navigation
	Footer	Sitemap, Contact Info
Main	Section 1 – Cover	Highlights
	Section 2	Ticketing Form
	Section 3	Upcoming Events
	Section 4	Featured Attractions and Rides
	Section 5	Link to Dining and Shopping Options
	Section 6	Links to Other Information
Details	Section 1	Attractions and Rides in Detail
	Section 2	Special Events in Detail
	Section 3	Dining and Shopping in Detail
More Info	Section 1	Ticket Options
	Section 2	Park Map
	Section 3	Accessibility Information
	Section 4	FAQs

Discussion

- Structure principles with the aim of designing a website with 3 pages
 - The most crucial information should be located toward the top
 - Relevant information should be located closer and be grouped
 - Structure analysis on other websites should be applied:
 - Navigation menu on the top

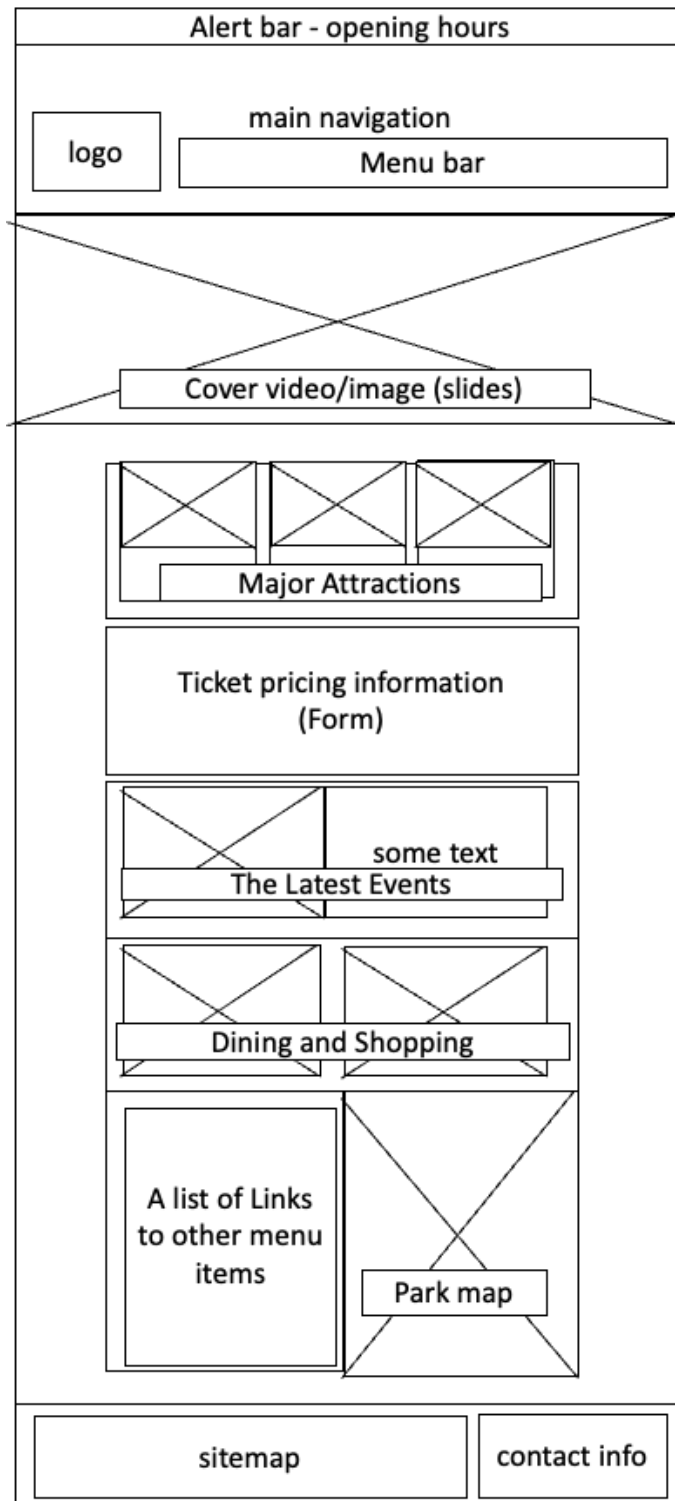

- Sitemap on the bottom
 - Sections to group different information
 - Cover section on the main page
 - Logo on the top
 - Detailed Information, such as contact information and customer support, on the bottom
 - Information, such as main events, should be highlighted at first glance
- 3 pages can be divided based on the type of information and the degree of detail
 - Main page contains an overview of various information and should be easy to navigate, and get visitors' attention
 - Page 2 contains information contains detailed core information
 - Page 3 contains supplementary information
- Main page
 1. (Header) Opening hours + CTA button
 2. (Header) Main navigation with logo
 3. Highlights (Cover)
 - Most popular attraction
 4. Upcoming Events
 - List of upcoming events
 5. Ticketing
 - Ticket packages
 - Discount options
 6. Attractions and rides
 - Main list of attractions and rides
 7. Dining and Shopping
 - Main list of gift shops and ATMs
 - Main list of Minecraft item-like food services
 8. Other services
 - List of other services
 9. (Footer) Sitemap
 10. (Footer) Contact info
- Page 2
 1. (Header) Opening hours
 2. (Header) Main navigation with logo
 3. Attractions and rides
 - Details of attractions and rides
 4. Dining and Shopping
 - Details of gift shops
 - Details of food services
 5. Events and Promotions
 - Details of events and promotions
 6. (Footer) Sitemap

7. (Footer) Contact info
- Page 3
 1. (Header) Opening hours
 2. (Header) Main navigation with logo
 3. Ticket Information
 - Explanations on ticket options
 4. Park maps
 - Locations of attractions and rides
 - Locations of gift shops and ATMs
 - Locations of other conveniences
 5. Accessibility Information
 6. FAQs
 7. (Footer) Sitemap
 8. (Footer) Contact info

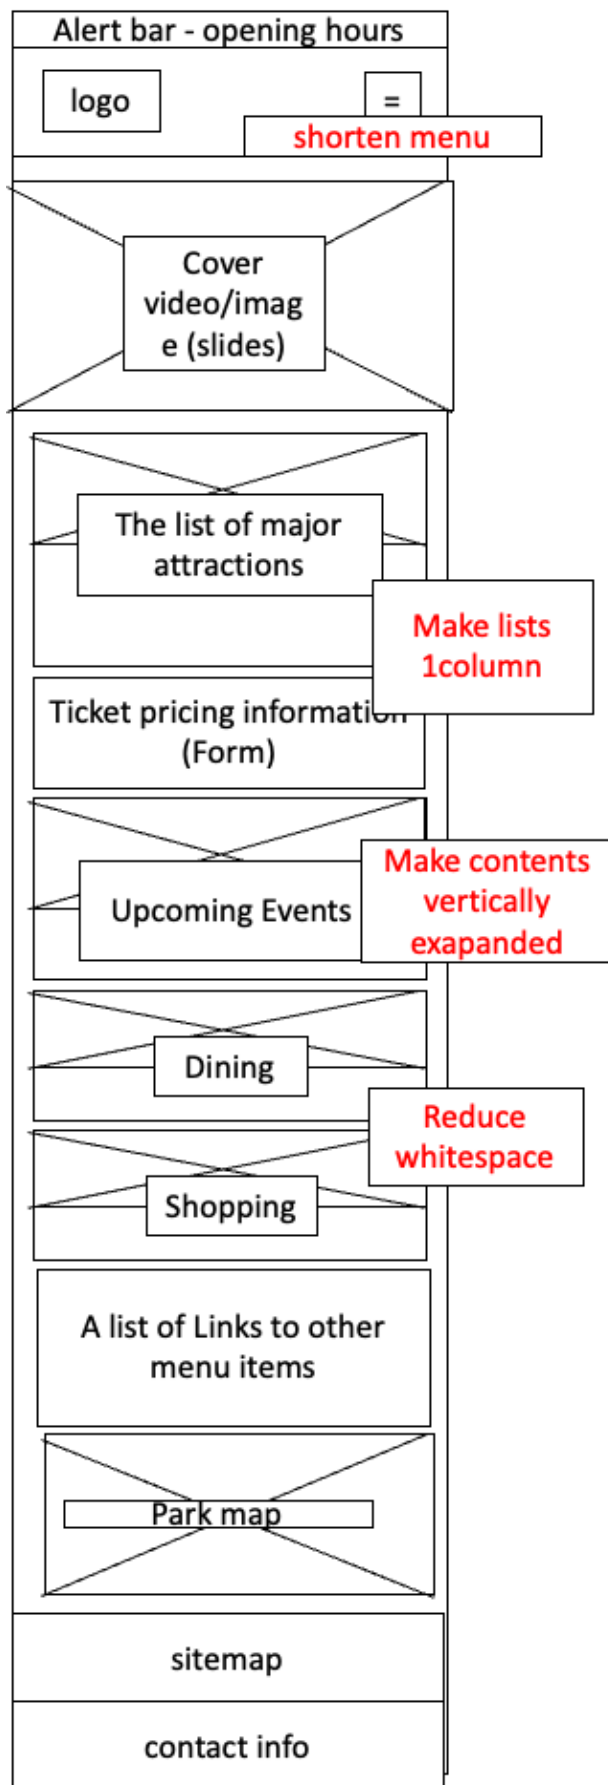

5. Design the wireframes for the website

Design

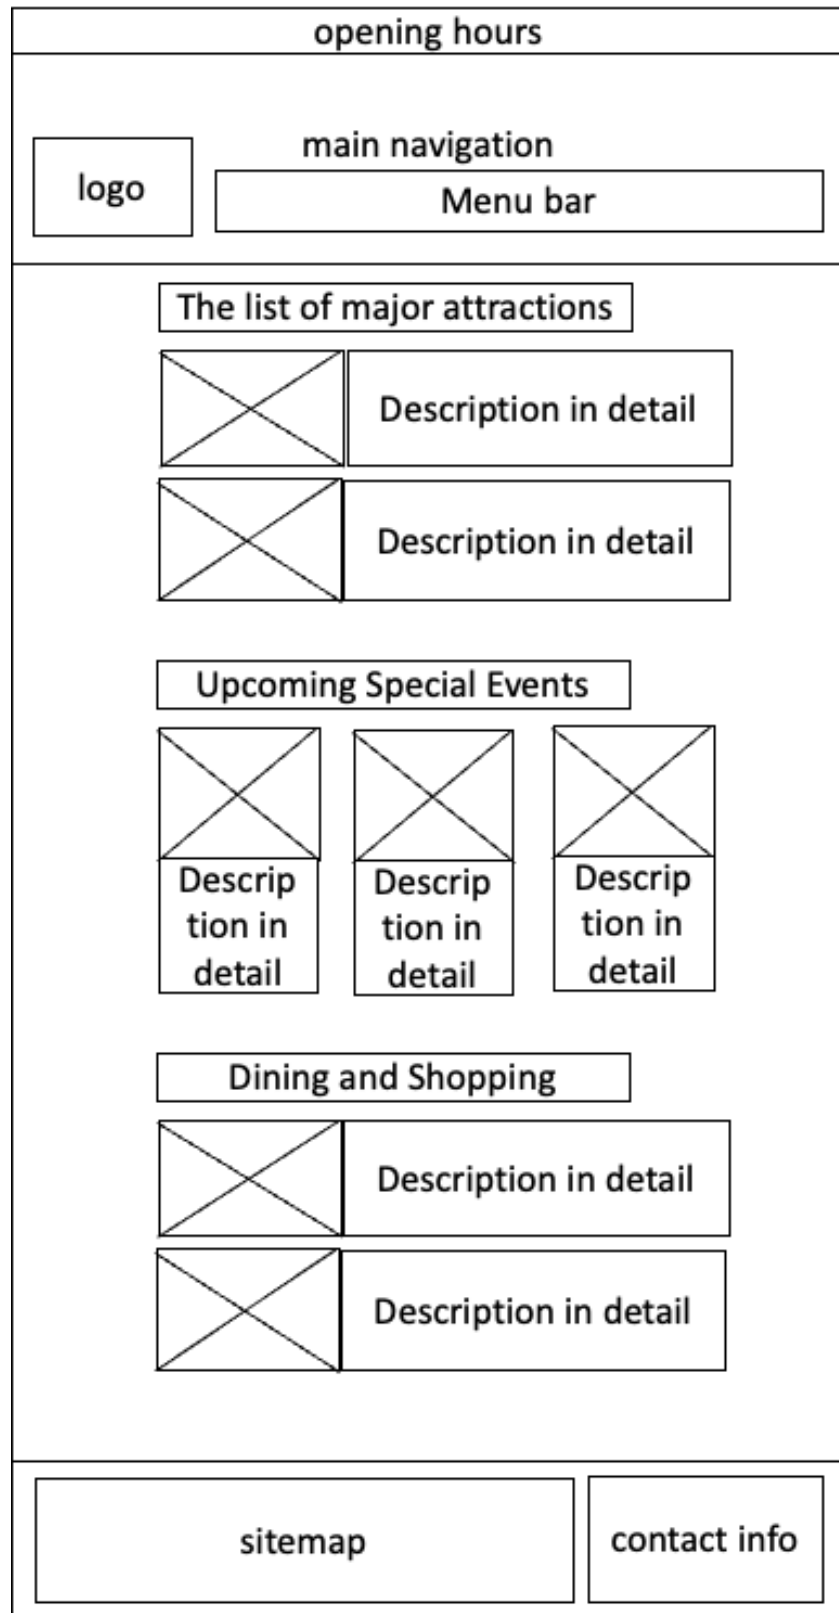

- Main page (page 1)
 - wide screen

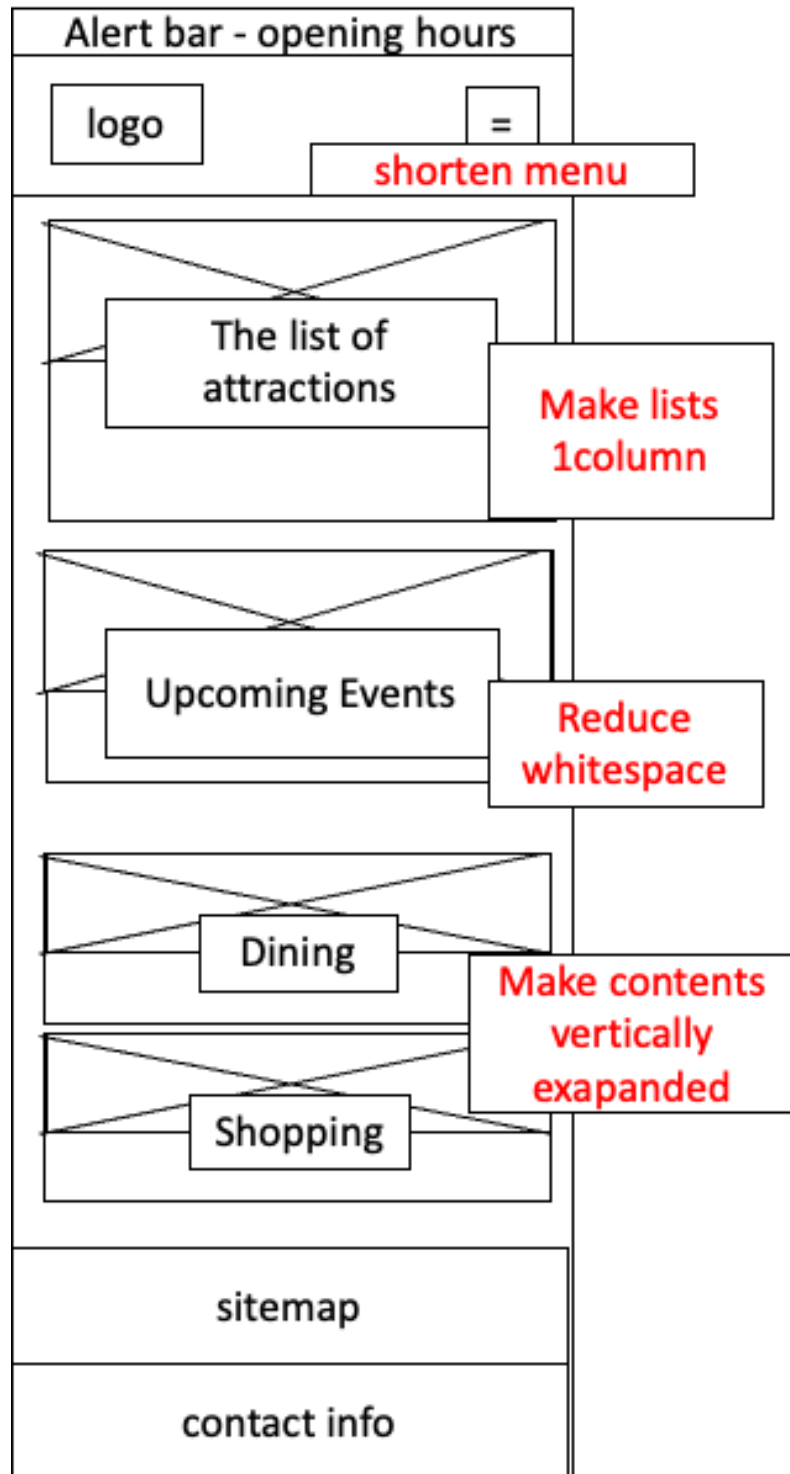

- small screen

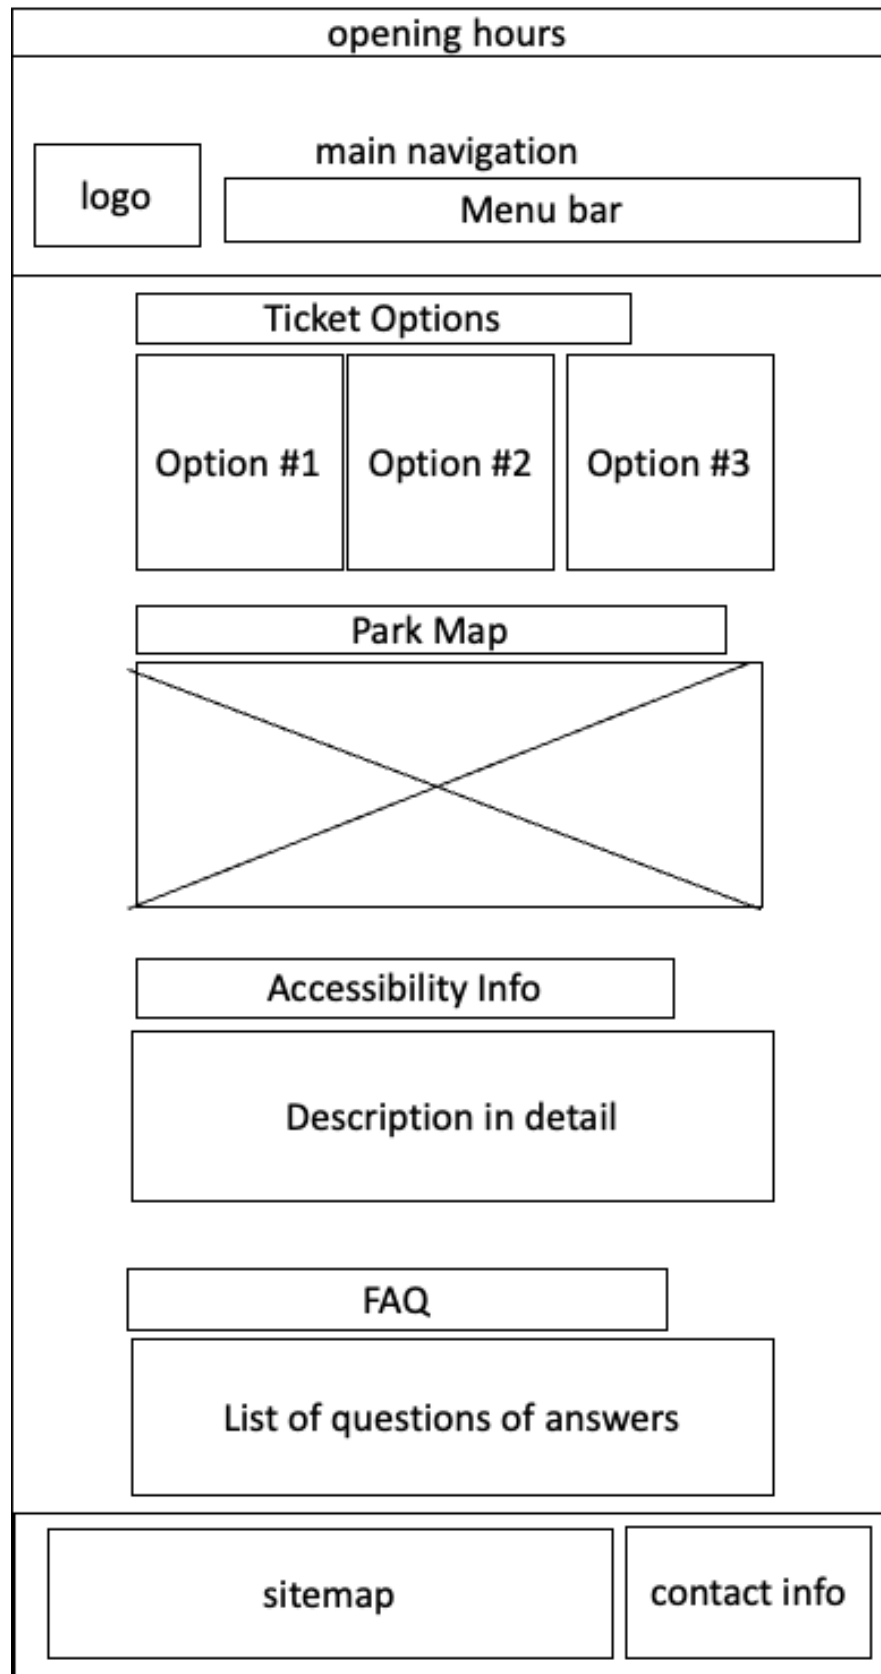

- Details page (page 2)
 - wide screen

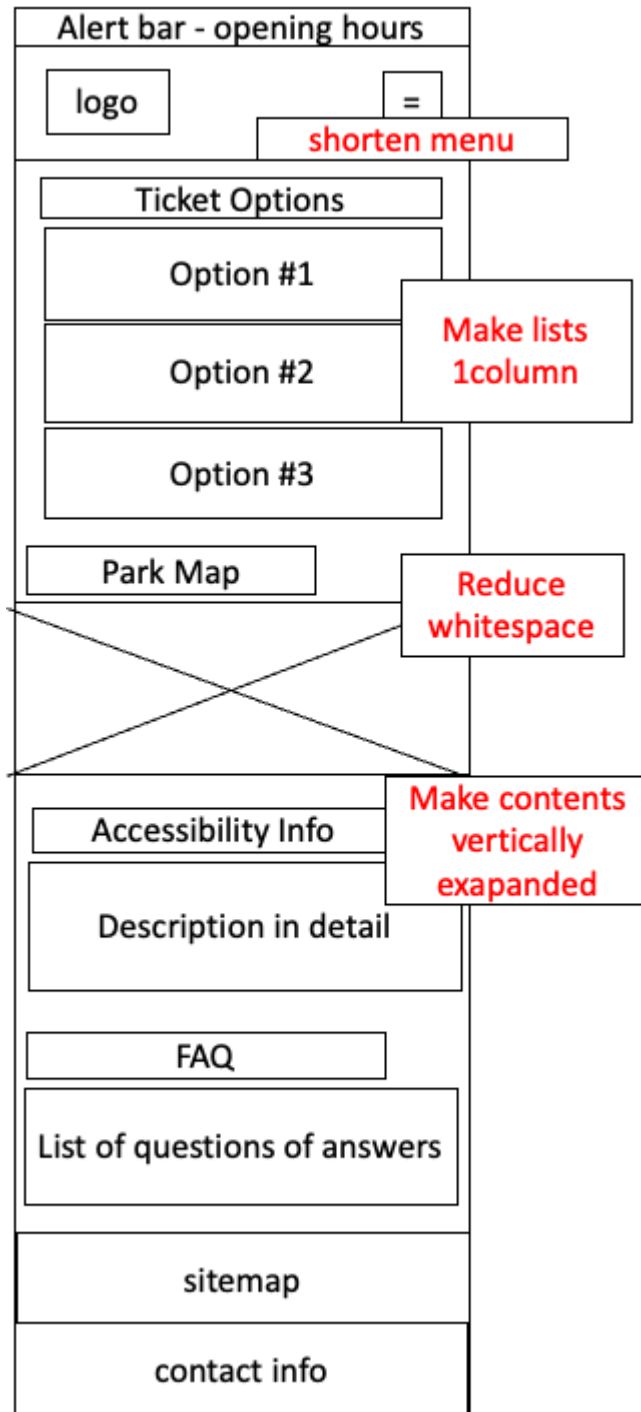

- small screen

- More info page (page 3)
 - wide screen

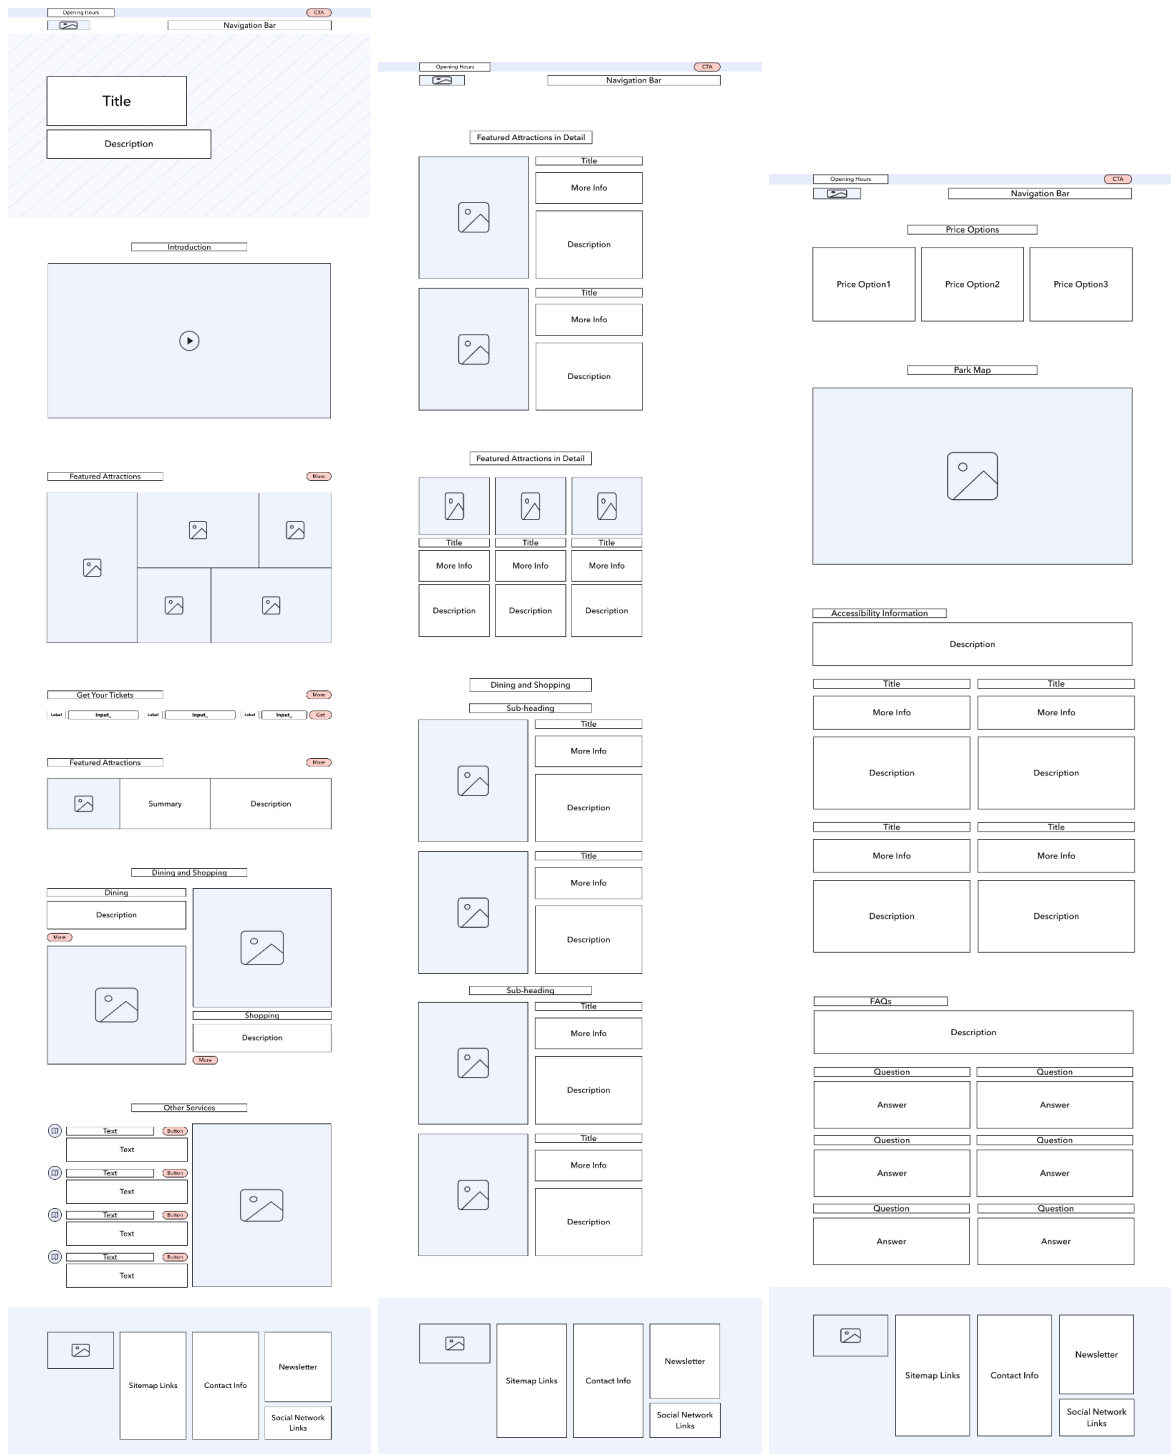

- small screen

Part 2 - HTML Construction

1. Developing & Designing Wireframe in detail

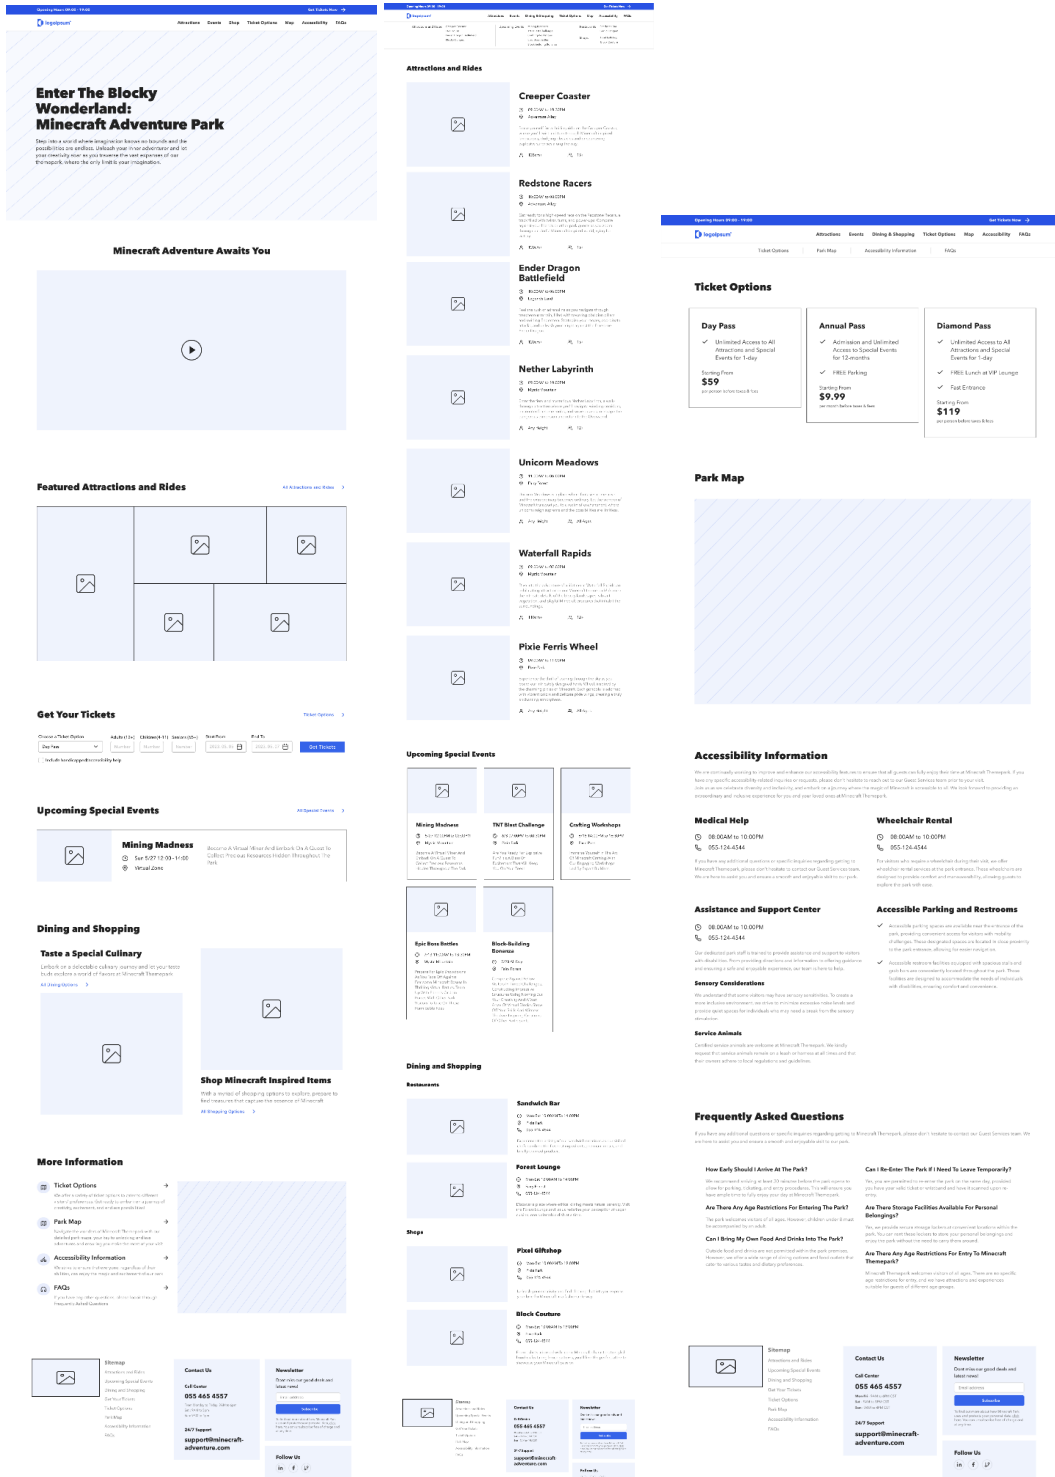

In this stage, based on the structure of the wireframes we defined above, the detailed items in each section have been designed to construct the actual HTML pages by using [Figma](#).

Part 3 - Adding style

1. Styling Components in Wireframe

In this stage, styling of each component in the wireframes has been done.

2. Design System Decision

Typography Decision

Typography decisions have been made to show playful characteristics of the site (Luckiest Guy). San serif(Nunito Sans) is used to consider readability for a wide range of audience. Since they are loaded from Google Fonts, the fallback of network failure is dealt with when coding.

MINECRAFT ADVENTURE PARK

Use typography to present your design and content as clearly and efficiently as possible.

DISPLAY LARGE - LUCKIEST GUY
57/64 -0.25

DISPLAY MEDIUM - LUCKIEST GUY 45/52 . 0

DISPLAY SMALL - LUCKIEST GUY 36/44 . 0

HEADLINE LARGE - LUCKIEST GUY 32/40 . 0

HEADLINE MEDIUM - LUCKIEST GUY 28/36 . 0

HEADLINE SMALL - LUCKIEST GUY 24/32 . 0

Title Large - Nunito Sans 22/28 . 0

Title Medium - Nunito Sans 16/24 . +0.15

Title Small - Nunito Sans 14/20 . +0.1

Label Large - Questrial Medium 14/20 . +0.1

Label Medium - Questrial Medium 12/16 . +0.5

Label Small - Questrial Medium 11/16 . +0.5

Body Large - Nunito Sans 16/24 . +0.5

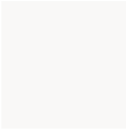

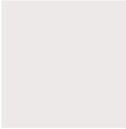

Body Medium - Nunito Sans 14/20 . +0.25

Body Small - Nunito Sans 12/16 . +0.4

Color Decision

Basic color rules are decided based on the characteristics of the site at first. Then we have developed color schemes in detail, considering the purpose of the contents.

Colors	Grayscale
 Primary	
 Secondary	
 Alert	
 Background	
	

```

/* - Font Color Rule */
/*
-- The biggest heading & call-to-action : strong color like #FF591C
-- Normal headings & link highlights : playful and attractive color like blueviolet(#8a2be2)
-- Background colors for secitonal division : light yellow-ish colors like linen and wheat
-- Alert on the top : stong yellow color for alarming
-- 5 level Greyscale system : #F9F8F7 #ECE9E8 #C0B6B1 #736D6A #262423
-- Using pure black should be avoided for reading comfortability -> use #262423
*/

:root {
  --color-primary: #ff591c;
  --color-primary-tint: coral;
  --color-secondary: #8a2be2;
  --color-secondary-tint: #8b7bef;
  --color-secondary-tint-2: #cdabff;
  --color-secondary-shade: #531a88;
  --color-alert: gold;
  --color-section: #f9f8f7;
  --color-section-hover: #e9e8e8;
  --color-gray-5: #262423;
  --color-gray-4: #736d6a;
  --color-gray-3: #c0b6b1;
  --color-gray-2: #ece9e8;
  --color-gray-1: #f9f8f7;
}

```

Part 4 - Adding layout

Thanks to the detailed design defined above, we did not need to add more layouts. Also, It was unnecessary to apply layout tags for the overall layout, because the main layout was simpler than the example we learned in class, since it is composed of an alert bar, main menu, content area, and footer vertically.

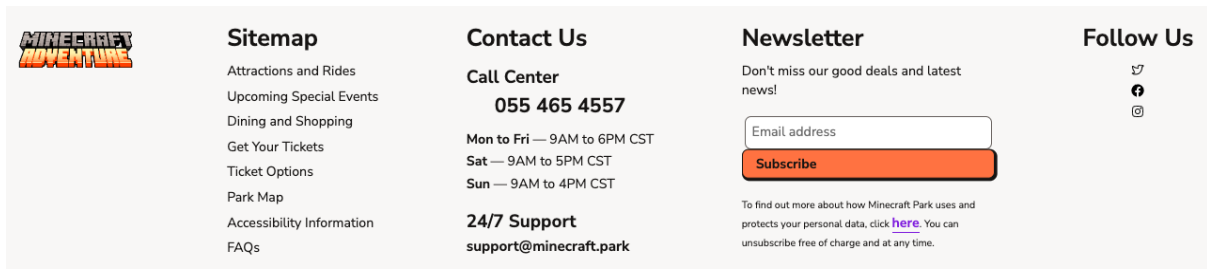

However, more complex layouts have been constructed in each section. For example, advanced grid is applied here;

FEATURED ATTRACTIONS AND RIDES

[All Attractions and Rides →](#)

advanced flex-boxes are applied here

The screenshot shows a website footer with five columns:

- MINECRAFT ADVENTURE** logo
- Sitemap**: Attractions and Rides, Upcoming Special Events, Dining and Shopping, Get Your Tickets, Ticket Options, Park Map, Accessibility Information, FAQs
- Contact Us**: Call Center 055 465 4557, Mon to Fri — 9AM to 6PM CST, Sat — 9AM to 5PM CST, Sun — 9AM to 4PM CST, 24/7 Support support@minecraft.park
- Newsletter**: Don't miss our good deals and latest news!, Email address input field, Subscribe button, To find out more about how Minecraft Park uses and protects your personal data, click [here](#). You can unsubscribe free of charge and at any time.
- Follow Us**: Social media icons for Facebook, Twitter, and Instagram.

For easy navigation, the 'top' button is added to scroll to the top that can access the menu. Since this button is always on the top of any contents, z-index and fixed position are used. A trivial hovering animation is also applied.

Appendix

This section includes in order:

- Wireframes part2
- Wireframes part3
- Wireframes part4

Please note that colors are not reflected to the wireframes to keep them simple. Also, since it has been developed as time goes, detailed texts and layouts are added in the final version.

Accessibility Information

We are continually working to improve and enhance our accessibility features to ensure that all guests can fully enjoy their time at Minecraft Themepark. If you have any specific accessibility-related inquiries or requests, please don't hesitate to reach out to our Guest Services team prior to your visit.

Join us as we celebrate diversity and inclusivity, and embark on a journey where the magic of Minecraft is accessible to all. We look forward to providing an extraordinary and inclusive experience for you and your loved ones at Minecraft Themepark.

Medical Help

08:00AM to 10:00PM

055-124-4544

If you have any additional questions or specific inquiries regarding getting to Minecraft Themepark, please don't hesitate to contact our Guest Services team.

We are here to assist you and ensure a smooth and enjoyable visit to our park.

Wheelchair Rental

08:00AM to 10:00PM

055-124-4544

For visitors who require a wheelchair during their visit, we offer wheelchair rental services at the park entrance. These wheelchairs are designed to provide comfort and maneuverability, allowing guests to explore the park with ease.

Assistance and Support Center

08:00AM to 10:00PM

055-124-4544

Our dedicated park staff is trained to provide assistance and support to visitors with disabilities. From providing directions and information to offering guidance and ensuring a safe and enjoyable experience, our team is here to help.

Sensory Considerations

We understand that some visitors may have sensory sensitivities. To create a more inclusive environment, we strive to minimize excessive noise levels and provide quiet spaces for individuals who may need a break from the sensory stimulation.

Service Animals

Certified service animals are welcome at Minecraft Themepark. We kindly request that service animals remain on a leash or harness at all times and that their owners adhere to local regulations and guidelines.

Accessible Parking and Restrooms

- ✓ Accessible parking spaces are available near the entrance of the park, providing convenient access for visitors with mobility challenges. These designated spaces are located in close proximity to the park entrance, allowing for easier navigation.
- ✓ Accessible restroom facilities equipped with spacious stalls and grab bars are conveniently located throughout the park. These facilities are designed to accommodate the needs of individuals with disabilities, ensuring comfort and convenience.

Frequently Asked Questions

If you have any additional questions or specific inquiries regarding getting to Minecraft Themepark, please don't hesitate to contact our Guest Services team. We are here to assist you and ensure a smooth and enjoyable visit to our park.

How Early Should I Arrive At The Park?

We recommend arriving at least 30 minutes before the park opens to allow for parking, ticketing, and entry procedures. This will ensure you have ample time to fully enjoy your day at Minecraft Themepark.

Are There Any Age Restrictions For Entering The Park?

The park welcomes visitors of all ages. However, children under 8 must be accompanied by an adult.

Can I Bring My Own Food And Drinks Into The Park?

Outside food and drinks are not permitted within the park premises. However, we offer a wide range of dining options and food outlets that cater to various tastes and dietary preferences.

Can I Re-Enter The Park If I Need To Leave Temporarily?

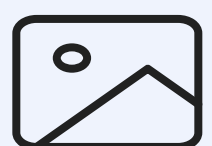

Yes, you are permitted to re-enter the park on the same day, provided you have your valid ticket or wristband and have it scanned upon re-entry.

Are There Storage Facilities Available For Personal Belongings?

Yes, we provide secure storage lockers at convenient locations within the park. You can rent these lockers to store your personal belongings and enjoy the park without the need to carry them around.

Are There Any Age Restrictions For Entry To Minecraft Themepark?

Minecraft Themepark welcomes visitors of all ages. There are no specific age restrictions for entry, and we have attractions and experiences suitable for guests of different age groups.
